The Quickest Shave

The smoothest, easiest shave men ever knew

By F. R. Chassey, R. S. M. & Co. Chicago

GENTLEMEN: We know your views on shaving men... We are using one you like well, and have no wish to change.

We would never trouble you to... offer you this absolute fact—did we not know that we had something better?

2,000 men consulted... Some years ago we asked 2,000 men to tell us what they wanted in a shaving cream.

These we added out other from our own knowledge—something no longer new. And we have made a shaving cream which the occupations of men know.

First 100 females... We know your chemistry. One of our secrets—Palmolive—has become the leading toilet step of the world.

We have devised our Shave-cream of us before—no making better or worse. But we have used 100 females before we got a shaving cream to suit. It took it.

The Five Qualities you must desire

- 1—Make your skin feel better 100 times, in 100 seconds, and you will have a better shave.
- 2—Even the most sensitive skin will not be irritated by the cream.
- 3—The cream will not dry out your skin.
- 4—The cream will not dry out your skin.
- 5—The cream will not dry out your skin.

The Triumph of the Open Type Element

THE question of men's dress is presented almost for the first time in our history. The subject is not new, but the subject of advancing taste and style and healthful demands of dollars drive us in experimenting how apparel for men can be made to meet the needs of the times. The clothing of men is in a state of transition. The men of the world have been making the last few years great strides in the direction of a more refined and healthful dress. The men of the world have been making the last few years great strides in the direction of a more refined and healthful dress.
